

How do I get my Facebook Account?

Well you are just 5 easypeasy steps away from having your very own account, this is how:

1 go to www.facebook.com

Now you see this screen:

No, don't worry, I put the circle in, that is for step two.

Speaking of which...step 2

Step 2

Fill in your name where it says 'full name'

Fill in your e-mail where it says 'e-mail'

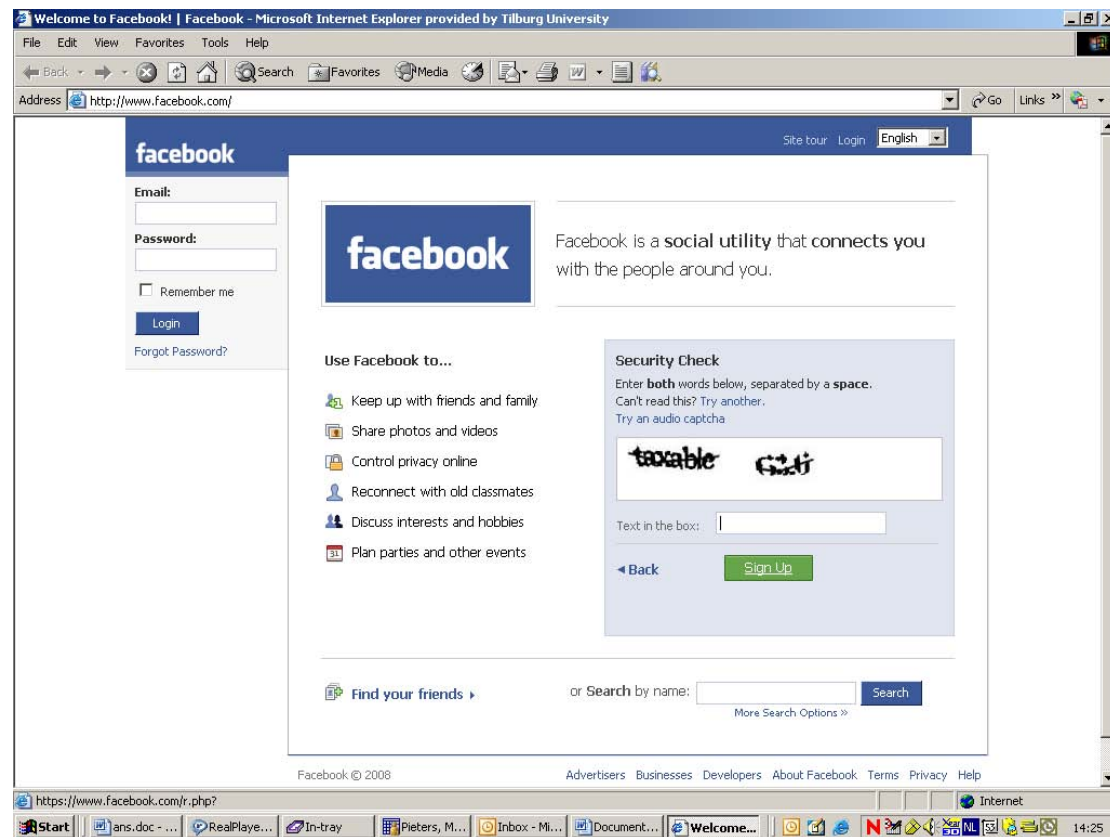

Fill in a password, where it says 'new password'

Fill in a birth date where it says 'Birthday'.

Got that? Ok, don't hang around now and press Sing Up. Now lets take it one step further...

Step 3

Now type the strange looking words into the box. And again press sign up.

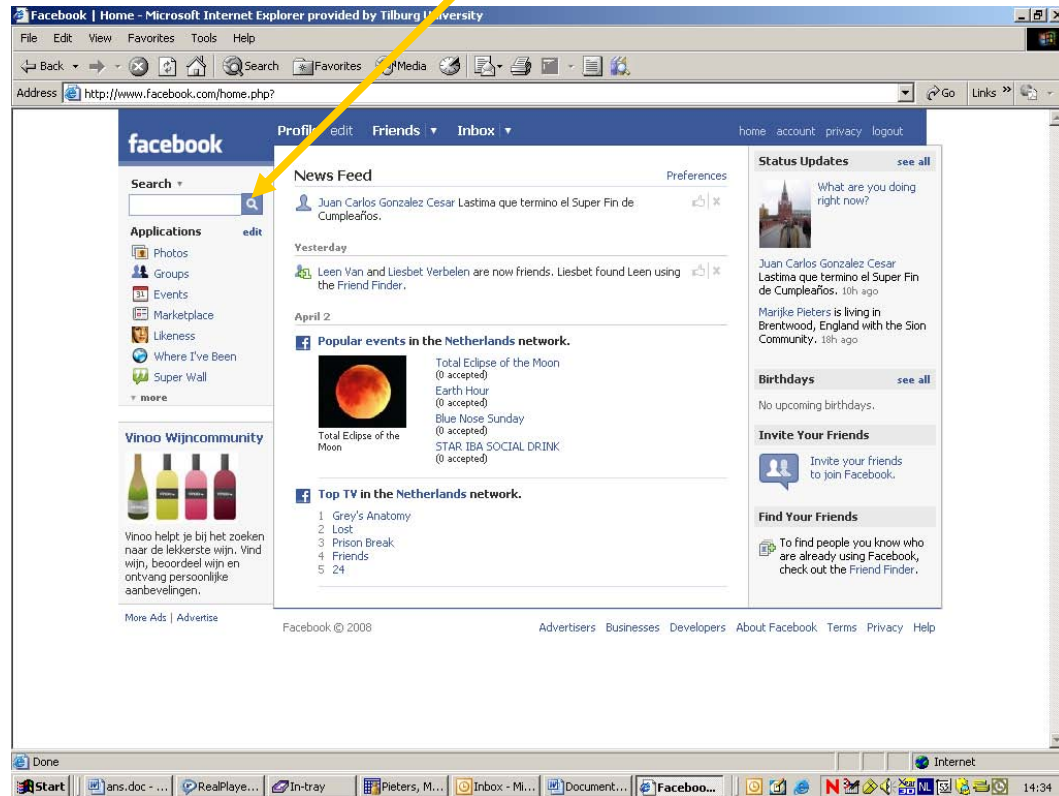

Step 4. You will receive an e-mail. Press the confirmation link.

Step 5. You will see three steps. You don't need to take them now, you can do them later or never. So either take them, or press skip.

- 1) The first will add all your contacts from your e-mail. You can deselect the ones you don't want. The remainder will receive an invitation to join Facebook, or if they have done so already to be your friendsweet.
- 2) I forgot what this one does. I think it tries to find people on Facebook near you.
- 3) The third will ask you about your school. Fill in that one and you will get an overview of every other Facebook member who has been to this school.

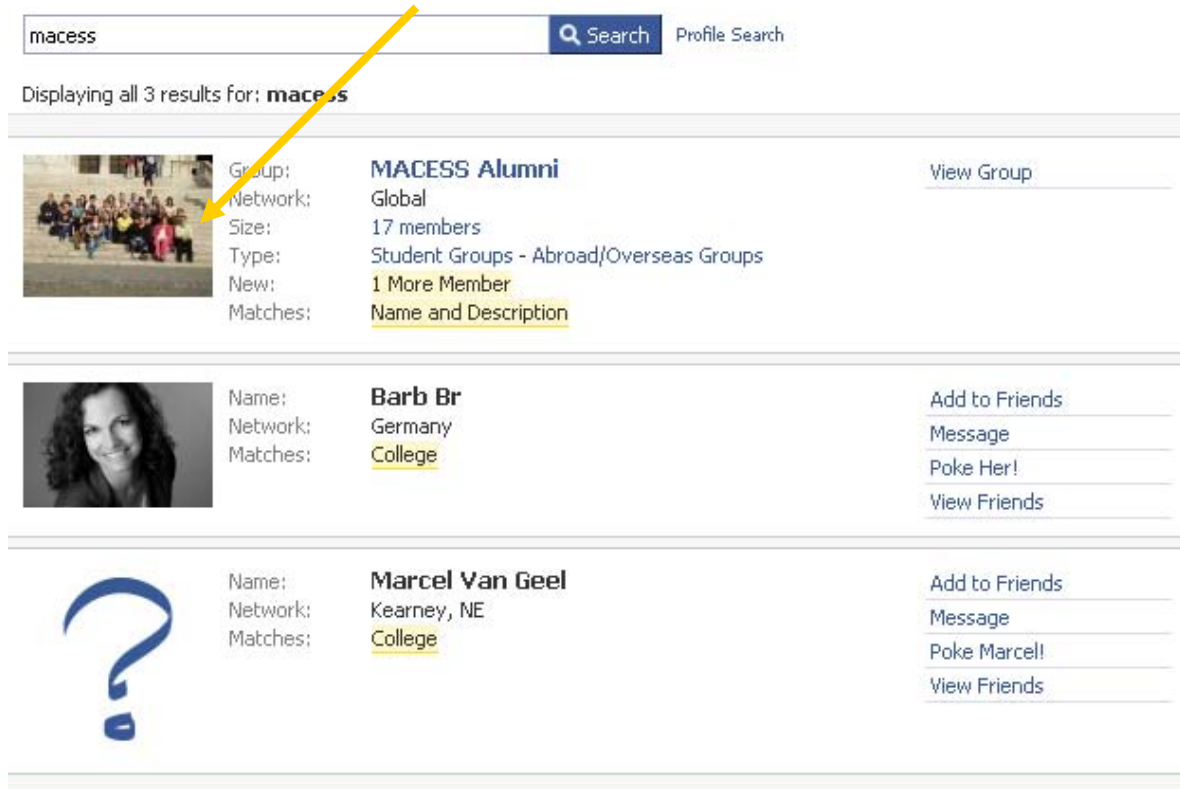

Ok you are in. You now have a Facebook account. Now you can do lots of stuff with it. For example you can add a photo of yourself. This is very easy and is explained at length on the site itself. So one last extra step to make it final.

Step 6 join MACCESS

Type MACCESS.

You will find us there, a picture of us in Brussels.

Now click that photo!

If you look closely to your right you will see our photo again, and below it, you can click to join our group.
